	Examiner YOLANDA CUMBESS	Art Unit 3651	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

Applicant's arguments with respect to claims 1-3, 10-11, 15, 18, 20-22, 24-25, 28, and 30-41 have been considered but are moot in view of the new ground(s) of rejection.

Claim Objections

Claims 1, 21-22, 25, 28, 36 and 37 are objected to because of the following informalities:

In claim 1, line 19, it appears that Applicant intended to use the word "at" instead of "a". The claim should read "at least one connecting body..."

In claim 11, line 3, Applicant should replace the word "a" with the word "the" in front of "plurality of connecting bodies..."

In claim 21, for purposes of distinctness and clarity, the Examiner recommends that that Applicant recite:

"The conveying device according to claim 2, wherein the conveying bodies further include an attachment means for temporarily holding the articles to be conveyed."

In claim 22, line 2, Applicant should insert the word "the" in front of "conveying bodies".

In claim 25, the Examiner recommends that Applicant recite "the device in accordance with claim 1, wherein the device comprises the conveyance of flat products, preferably printed products."

In claim 28, for purposes of clarity, Examiner recommends that Applicant remove the phrase "as well as" in line 2. Examiner also recommends that Applicant replace the phrase "and that guide rails and conveying bodies", with "and wherein the guide rails and the conveying bodies..." in line 13.

In claim 36, Applicant should remove the phrase "in particular" for purposes of distinctness and clarity.

In claim 37, Examiner recommends that Applicant replace the phrase "wherein the axes respectively are arranged", to "wherein the respective axes are arranged..."

Appropriate correction is required.

Specification

The disclosure is objected to because of the following informalities: The disclosure contains several misspelled words such as "utilised" in Para. 0003, and "stylised" in Para 0026. The correct spelling of the words is "utilized" and "stylized". All other occurrences of such misspellings should also be corrected.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Art Unit: 3651

Claims 18 and 32 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The amended claim requires the connecting body to move at a speed lower than the conveying body. This amendment is not supported by the specification.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 28 and 35 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 28 recites a conveying body that rolls up over the rolling body comprises further rollers which roll on an exterior surface of the guide rail. It is unclear as to what Applicant intends by the conveying body "rolls up over the rolling body comprises further rollers" as recited. The "rollers" are already mentioned in line 4.

Claim 35, recites "wherein relative to two rolling bodies at a straight angle opposing each other ...". It is unclear as to what Applicant intends by "wherein relative to two rolling bodies at a straight angle opposing each other". Does Applicant mean:

Art Unit: 3651

"The conveying device in accordance with claim 32, further comprising a third rolling body that is arranged at a right angle to the at least one conveying body".

Allowable Subject Matter

Claims 28, 32, and 35 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Claims 33-41 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 1-3, 10-11, 15, 20-22, 24-25 and 30-31 are allowed.

As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).
